

## PHOTOGRAPHY AS YOUTH INTERCULTURAL DIALOGUE

2022-2-ES02-KA220-YOU-000092147

## Intercultural Colors of Europe

The course, was held January 23-25, 2024 in the picturesque city of Matera, Italy. 🇮🇹🌟

For three vibrant days, we explored the art of photography as a means to foster cross-cultural connections. Through the lens, we captured moments that tell stories of cultural exchange, mutual understanding and personal growth. These photographs are not just images, but cherished memories that will continue to inspire us and our communities.

We owe immense thanks to Studio Risorse for their exceptional planning and flawless execution of this event. Their hard work, dedication and attention to every detail made our experience meaningful and memorable.

To all the committed youth workers, educators, trainers, leaders and volunteers who brought their energy and passion to this course, thank you! Your active participation and enthusiasm were the key to the success of the course.

As we say goodbye to Matera, we take with us the friendships, insights and motivation gained during this beautiful journey. Let us continue to use photography as a *transformative* tool for intercultural dialogue and the promotion of positive change wherever we go.

# About Project

## Project Objectives

The general objective is to promote intercultural dialogue among young people. Additionally, we propose three specific objectives:

- 1.To enhance the skills related to promoting intercultural dialogue for 18 individuals working in the youth field.
- 2.To make young people aware of the importance of intercultural dialogue by encouraging discussions.
- 3.To encourage young people's participation in intercultural dialogue through photography
